EGG CATCHING

With your player or players, take a fresh egg.

Stand a pace apart from one another and throw the egg between you.

Take a pace back and throw again... repeat until the egg smashes.

COLOUR STORY

Each player picks a card and hides it from the other players.

Use the word written on the back to generate about five words or ideas that you associate with this colour.

Swap your associations (not the original word!) with another player with another player.

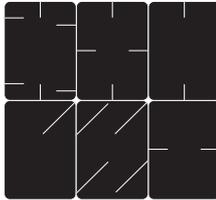

IMAGINARY TRAVELLING

Choose one country from the cards. Each player in turn travels to the country and performs an action there.

This action begins with each players initial. Each player tries to remember all the other things and actions that preceded their visit.

3D SHUFFLE

Make cuts in these cards to build a new structure.

BLUE LIKE AN ORANGE

Each card has a colour on the back.

Show the card back to the other player .

The player must speak the COLOUR they see not the WORD.

See how many you can do in 1 minute.

PELMANISM

Spread out the cards face down.

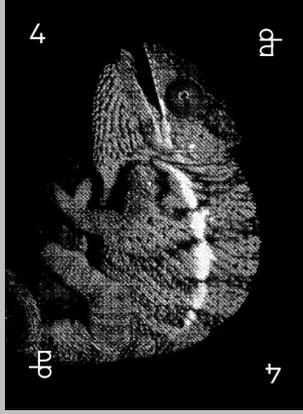

Player 1 turns two cards. If they match, the player has another turn.

If they don't match, the cards are replaced and the next player turns two cards to find two that match.

LOOKS LIKE GREECE

Each choose a map card. Over one day, each time you find the shape of your country, photograph it.

Meet again, bring back the photographs and try to guess what countries each player has seen in the shapes of the photos.

Serpentine Gallery

NEVERODDORVEN INTRODUCTION

Discover how to become a gallery member for a year and enjoy all the benefits of membership for yourself and your family.

PLAYING NEVERODDORVEN

Neveroddorven is a board game for 2-4 players. It is a fast-paced, strategic game that can be played in 15-20 minutes. The game is set in a gallery and involves collecting cards and using them to complete sets. The sets are then used to unlock different areas of the gallery, which contain various items and rewards.

INSTRUCTIONS

The game is played on a board that represents the gallery. The board is divided into different areas, each with its own set of cards. The goal of the game is to collect all the cards in a set and use them to unlock a new area of the gallery. The game is played in turns, with each player taking a turn to draw cards and use them to complete sets.

Advantages

Neveroddorven is a great game for families and friends. It is easy to learn and play, and it provides a fun and challenging experience for everyone. The game is also a great way to spend time together and enjoy each other's company.
